

13.04.2022

Crystal System is looking for a **Microstrategy Developer** to join our Data and Analytics team.

If you are interested, please send your cv at [careers@crystal-system.eu](mailto:careers@crystal-system.eu)

- The client: one of the global leading tobacco manufacturers
- Job location: remote
- Contract: employment contract or self-employed
- Duration of the project: long term

You will help to improve an established MicroStrategy implementation and be joining the team at a time of significant change for the Data & Analytics Team. Your excellent data and front-end visualisation capabilities will play a part ensuring we deliver on all 2022 growth ambitions.

#### **Who we are looking for**

- Experienced with other data and reporting tools including Tableau, PowerBI, Looker etc for automation
- Knowledge and experience with Agile Scrum methodology
- Strong visualisation skills
- Excellent business communication skills with a delivery mindset, and ability to work to deadlines

#### **Characteristics and skills:**

- 5+ years of application development and implementation experience
- 3+ years of MicroStrategy experience
- 2+ years of relational database experience
- Strong SQL development and performance tuning skills
- Understanding of and ability to troubleshoot database\ODBC connectivity issues
- Ability to track, troubleshoot and document issues

If you are interested, please send your cv at [careers@crystal-system.eu](mailto:careers@crystal-system.eu)
